Disruption to Raleigh Mine production

Following an earthquake in the Kalgoorlie region on 26 February 2014, the Company wishes to advise that some damage was incurred at the Raleigh Underground Mine, which is part of the 12.25% East Kundana Joint Venture (EKJV). Production at the Raleigh Mine will be temporarily disrupted for approximately 6-8 weeks in order to rectify the situation which may delay 700 - 1200 ounces of gold production this year.

Production at the Rubicon and Hornet Mines which provides the majority of the EKJV gold production was unaffected.

Yours faithfully
Rand Mining Ltd

Anton Billis
